## Sampson, Dewey and Lee.

The following lines were written by a little Greensboro girl and she asks us to publish them:

Sampson, Dewey and Fitzhugh Lee Are the three bravest warriors you ever did see.

With uniforms all sparkling and bright Fighting the Spaniards with all their might.

The Spaniards are old fellows, too And tell you the opposite thing to do; But when at last comes the end, Remember your suffering, wounded friend.

On the battle field, enduring pain, But he is ready to fight again.

A Little American Girl.

## Small Congregations.

In the city churches about this time of year congregations are unusually small. A large number of people drive out into the country to attend protracted meetings at the country churches, while others stay at home or ride out simply because "it is too hot to attend church." Others go out and take a ten or twelve miles whirl on a bicycle, as that is much cooler than to sit in church for an hour!

San Francisco, August 8.—The Hawaiian commission arrived here this morning and will take passage on the Mariposa for Honolulu, which sails next Wednesday.

## Big Shipments of Coal by River.

Pittsburg, Aug. 7.—Two million bushels of coal were shipped to Louisville and Cincinnati today by river, making nearly 8,000,000 in two days. This is the heaviest shipment in so short a time made from this port in years. The river is now falling and the bargestage is ended.

## Busted Klondike.

The Klondike boom is slowly bursting. The whole business up there has been absurdly overdone and the steamboat companies and land agents have lured thousands of men to hardships unutterable, while they themselves profited greatly.—City of Mexico Herald.

## A Russian Back-Down Indicated.

## Another Steamer Not Gold Laden.

## GEN. MILES IS SWEEPING ON.

In The Face of The Rumors of Peace.

## FIRST NORTH CAROLINA TO GO.

Men Now at Camp Merritt and Presidio May Not Go to Manila as Has Been Intended.

By Wire to THE TELEGRAM.

Jacksonville, August 8.—The First North Carolina regiment, the Second Texas and the First Alabama are preparing to take their departure for Porto Rico according to instructions which have been received. The First Texas regiment went into camp today.

## MILES IS SWEEPING ON.

Ponce, August 8.—Amid the rumors of peace the army of General Miles is sweeping on toward San Juan from the east, the west and the center. This will compel the enemy to concentrate its forces at the capital. Gen. Henry is advancing on Arceibo and artillery is going to Yauco, probably to threaten Mayaguez. The army is strong and should succeed without any set back. The navy expects to be called on for little service. Reconnaissance at Fajardo shows that there are no batteries there. It is reported that San Juan will offer but little resistance.

## SCINDIA AND ARIZONA TO SAIL.

San Francisco, August 8.—The transports Scindia and Arizona are expected to sail for Manila the latter part of this week. The belief is growing that they may not carry the number of men intended for them, and that the peace negotiations will mean the mustering out of the troops now remaining at Camp Merritt and Presidio. General Merritt now has fifteen thousand men at Manila.

## PREPARING FOR THE TROOPS.

Jersey City, August 8.—The First battalion of the Sixth U. S. Cavalry arrived here this morning enroute to Montauk Point to prepare a place for General Shafter's troops.

## COLORADO TROOPS LEAVE LAST.

Washington, August 8.—Adjutant General Corbin has decided that the Ninth and Tenth cavalry and Twenty-fourth infantry, all colored, will be the last to leave Santiago.

## ORDERS FOR EMBARKATION.

Santiago, Aug. 7.—The orders have been given to embark fifteen hundred infantry on the Vigilancia which sails this evening with Gen. Ames and his staff; also the Sixth and Thirteenth regulars will sail tomorrow; the Sixteenth regulars and two battalions of the Seventy-first New York will leave for Montauk Tuesday when Kent's division will leave.

The transports Mattewan and Miami have sailed. As the troops take no tents and little baggage, the work of embarkation will be quickly performed. All the men look very tired and worn. At the regular meeting of the society of the army at Santiago, Gen. Shafter was elected permanent president, with Major Sharp as permanent secretary.

## GENERAL WHEELER SAILS.

Santiago, August 8.—General Wheeler sailed on the transport Miami yesterday. Kent's division, comprising the Sixth and Thirteenth infantry sails today. The Alcantar, a Spanish transport, arrived yesterday afternoon from Martinique. General Shafter expects to begin shipping Spanish troops shortly.

## Shafter's Report for August 6.

Washington, Aug. 7.—Gen. Shafter's daily report to the war department of the health of his command at Santiago, as bulletined by Adjutant General Corbin tonight, follows:

Sanitary report for August 6.—Total number sick, 3,581; total number of fever cases, 2,638; total number new cases of fever, 431; total number cases returned to duty, 477; additional deaths, August 5th, 2; deaths August 6th, 7, including Major M. J. O'Connor, of the Ninth Massachusetts.

## The Fleet at Playa del Este.

Playa del Este, Cuba, August 7, 2 p. m.—The fleet is still here intact, awaiting word from Washington. The collier Lebanon, towing a coal schooner, arrived today. The schooner Admiral Sampson, with provisions for sale, also arrived. Both schooners are from Key West. The converted yacht Vixen was sent to Santiago this morning to get the registered mail held there for the fleet. The St. Louis is still here awaiting a decision of the question of her entering Santiago harbor.

## The Gussie Reported Lost.

Washington, Aug. 7.—Adjutant General Corbin said tonight while no definite information had been received by the war department concerning the steamer Gussie, reported lost off the southwest coast of Cuba, he was reasonably sure the vessel was safe. She was sent to Santiago with supplies and from there was to go to Porto Rico with ordnance stores for the army of invasion. Dispatches about transports from both General Shafter and General Miles were received today, and as no reference was made to the Gussie it is taken for granted that she is carrying out the programme arranged for her.

## Brave, but Not Reckless.

Hobson is a brave man, but not reckless. He took in the Merrimac, but he refused to bring a license when challenged by a Kansas girl. He knows when he has enough, even though Spaniards include him among the "Yankee pigs."—Jacksonville Citizen.

By Wire to THE TELEGRAM.

Washington, Aug. 8.—The Spanish answer to the United States' terms of peace had not been received by the French Embassy at 11 o'clock this morning. The belief is growing among the officials here that the formalities necessary for its translation and reduction into cipher at Paris and its transmission to the Ambassador here cannot be completed until sometime this afternoon.

## SUBJECT TO APPROVAL.

Madrid, Aug. 8.—The Spanish press this morning says Spain's acceptance of the terms of peace is subject to the approval of the Cortes. The papers also express apprehension of possible complications which may arise through future correspondence.

## ANSWER RECEIVED.

The Gate City left yesterday with five hundred cavalrymen aboard. The Miami and Mattewan are expected to leave today. The Grand Duchess will leave tomorrow with a full regiment aboard.

It is the intention of the war department to have every ship load of troops detained at the New York quarantine long enough for a thorough inspection to be made in order to guard against an outbreak of yellow fever at Montauk Point. After such investigation the transports will be hurried to Montauk immediately.

## WADE'S DIVISION.

Chickamauga, Aug. 8.—The signal corps, after marching to Ring Gold, left on a special train for Newport News. Seven regiments, comprising Gen. Wade's division, have received no orders to move.

## Book on The Philippine Islands.

A new book on the Philippine islands is announced by the Continental Publishing Co., Park Place, New York. The author is Ramon Reyes Lala, a native of Manila. Advance sheets show that it presents a fascinating description of that remarkable country and its resources, with an accurate and interesting history of the Spanish discovery and dominion, as well as the recent American conquests and their occupation. This work is a trustworthy account of the many points of interest throughout the islands. It is full of information concerning plants and animals and the wonderful varied agricultural and mineral resources of this Paradise of the Tropics. The principal cities are graphically described and the authors admirable and suggestive sketches of the life, character, religion and customs of the natives, lend the book an additional charm. About one hundred superb illustrations, most of them full-page, adorn the book, giving it a pictorial beauty and adding material worth. Many of these are from photographs that were taken by the writer himself, and the others are from a carefully chosen collection made by him in Manila. Mr. Lala is a member of a wealthy and influential native family, and was formerly years prominent in business and social life in Manila. He was educated at St. Johns College, London. Being no longer able to endure Spanish oppression, a few years ago he transferred his allegiance to the United States. The book, now in press, is to be a large 8vo volume, handsomely bound in cloth, with appropriate decorative design. Price \$2.25.

## GAIETY IN SPAIN.

Yesterday Was Marked With The Usual Bull Fights.

London, Aug. 8.—A special dispatch from Madrid says: "Apparently the public is little concerned about the progress of peace negotiations. There were bull fights as usual today (Sunday) and the customary amusements proceeded with the utmost gaiety."

"El Imparcial proposes a new solution for the settlement of the Cuban debt. It takes it for granted that the United States cannot be asked to assume the burden of about \$32,000,000 (\$160,000,000) of debt existing when the rebellion began in 1895, and the \$90,000,000 (\$450,000,000) spent since and it suggests that Spain should undertake to pay interest and redemption on the Cuban debt until the new West Indian republic is in a position to do so, which El Imparcial affects to believe Cuba could soon do, when its vast natural resources were developed under an American protectorate."

"The papers comment on Senor Sagasta's astuteness in consulting the political leaders. This act has greatly strengthened his position, because nearly all approved his peace policy and none had any feasible plan to propose for prolonging the war or getting better peace terms."

"The comments on the conditions of peace are very reserved. If the United States insists upon an immediate evacuation of the Antilles, the Cortes will be convoked forthwith. Tomorrow the queen regent will sign a decree increasing the note circulation of the Bank of Spain. The work of strengthening the fortifications in the vicinity of Gibraltar goes on unceasingly."

## AS TO CANDIDATES.

The season is now on for political conventions. Next Saturday is the day for the township primaries for Guilford county to be held. It has often been urged upon the people that the primaries are of vast importance; there is where the people are sovereign; there is where every man can make himself felt. Democrats, don't stay away from the primaries and then complain that the candidates are not the kind of men they should be.

From the township primary should be sent up to the county convention, men who are honest and sincere, men who are in favor of selecting none but clean men to represent the people in the legislature. There are many and grievous wrongs to be righted—wrong that must be righted by the next general assembly. In order to accomplish this men who love decency, who love honesty, who love good government, who love principle more than pie must be sent to the legislature.

The place for the people to get in their work is, we repeat, at the primaries. Don't stay at home and let the ringsters and schemers put somebody on the ticket who will be distasteful and objectionable. Go, and see to it that none but first-class, clean and honorable men are nominated.

Along with about a column of incoherent rot the Union-Populist relates the old story of the one-eyed negro who told his master he had seven sides including the blind side, comparing his case to that of the democratic party with the difference that the democrats have about seventeen sides instead of seven. Brethren, we are undone. There is no hope for us. We cave. We have been accused of everything in the catalogue of crime. We have stood and borne it all. We can stand being accused of being gold bugs and silver bugs at the same time. We can stand the charge of riding horses going in opposite directions at the same time. We can stand the charge of stealing thousands of votes of freemen; but when it comes to being compared to a one-eyed "nigger"—it is too much and with a wild, weird wail of woe we give up the fight!

A movement is on foot to petition the President to abolish the army canteen, which is nothing more nor less than a barroom. Pastors of different churches all over the land are getting up petitions to President McKinley to stop this traffic. The scenes at different camps on pay days should be all the petition necessary to induce the President to stop the debauchery business.

## SEQUEL TO AN UPTURNED BOAT.

Its Occupants Were Rescued from a Very Perilous Position.

Yesterday's Landmark contains the announcement that Captain Benson, of the tug Alliance, had found a catboat bottom upwards off Old Point, and as sequel to this the following was learned yesterday:

Two elderly gentlemen, one Mr. Walter C. Wilkins, of Brambleton ward, the other Mr. T. C. Williams, of Baltimore, were fishing in the Nausemond river in a catboat on Thursday evening. About 7 o'clock a severe storm caught the catboat, and tossing it about like a shell, tore away the sail and overturned the boat. The two fishermen caught hold of the upturned boat and held on while the mast stuck in the mud. The tide came in, lifted the mast out of the mud and carried the boat up the James river; nobody knows how far.

There was no chance of rescue until daylight Friday morning. No boats were passing and no lights were in sight that they could reach. The two gentlemen could not let go in deep water. It required all their strength and endurance to hold on. They held on to the boat and drifted all night and until 5 o'clock next morning, when, having drifted back with the ebb tide, they were picked up by some of the crew of a collier off Old Point. The two men were so weak from exhaustion and exposure that they were unable to give any account of themselves. They were properly treated and put to bed till they recovered sufficiently to leave for Norfolk. They are both safe and well now, but marvel that they were not drowned.—Norfolk Landmark.

## HOBSON AN ORATOR.

An Easy Diction, a Graceful Delivery and Handsome Presence.

Richmond Pearson Hobson is an orator as well as a hero.

Last night at the Metropolitan opera house he delivered an address which kept thousands upon thousands of sweltering people upon the breathless edge of a cheer for upward of an hour and every now and then he set them rolling in a frenzy up on the seats, waving hats and fans, handkerchiefs and flags, stamping the floor like mad men, pounding canes and hands and umbrellas in delirious ecstasy. It is a good thing for the politicians that he doesn't want some high office just now. And with what coyness the lecture bureau men will regard him!

In the first place there is the man and the achievement—enough to make the stones cry out their applause. Then comes a deeply resonant voice, fitted for command. Beyond this is an easy diction, graceful delivery, handsome presence and that "thrill in intonation which marks the genius of the stump and platform."

But, better than all, is an enthralling modesty which eliminates the offensive "I," and tells its own great deeds through the narration and praise of the deeds of others—Friday's N. Y. Journal.

## Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for consumption, coughs and colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at C. E. Holton's drug store.

## ALGER TAKEN TO TASK.

His Conduct of the Santiago Campaign Sharply Criticized.

London, Aug. 8.—The Times says editorially this morning:  
"It is a hard nut the negotiators have to crack regarding Cuba. The Americans cannot garrison the islands and it would be rather absurd to ask the Spanish troops to remain and keep order there. There is such a thing as victory so complete and easy as to be more embarrassing than a struggle upon something like equal terms."

'Had the Spanish army in Cuba been beaten in the field, the situation would have been much less complicated as the administration of the islands would simply be taken over by the victorious army. The American war office is the subject of severe criticism from men of all parties and Secretary Alger, our New York correspondent caustically observed is regarded seriously as a candidate for retiring to private life. There undoubtedly has been most serious mismanagement in connection with the Santiago forces and had not public opinion intervened upon the manifesto of the generals, it is not known what the war office would have done on covering up its own mistakes, until the Santiago force had succumbed entirely to disease."

"Now the troops are being deported from the island as rapidly as possible, but with them goes every trace of American power to deal with a possession of which Spain is to be deprived."

"No native government is possible; no American government is ready or likely to be ready for a long time to come. In the meantime the Spanish army is starving with the civil population. Even this seems to have moved so quickly as to have the American war office absolutely unprepared to deal with problems much greater than the provisioning of the field forces at Santiago."

## The Best Remedy for Flux.

## Tumor In the Breast Cured

Six or seven years ago I had a lump  
so known to come in my breast which  
made it swell so much that it became  
so hard I could not make a dent in  
the breast. It was so painful and  
caused me to suffer so that some nights  
I could hardly turn in the bed or rest.  
Nothing did me any good, and I was  
very uneasy, not knowing how it  
would terminate. I used one-half  
dozen bottles of Mrs. Joe Person's  
Remedy, without stopping on it, and  
it made a perfect cure of me. The  
lump disappeared gradually and I  
have never had any trouble from it since.

## Grave of Patrick Henry.

Every now and then we see in some  
newspaper the query, "Where is Pat-  
rick Henry buried?" and tourists in  
Richmond constantly ask to be shown  
his grave, with the mistaken idea that  
it is in that city, where much of his  
public career was passed. Few people  
comparatively know that the man who  
acquired the title of "The Tanager of  
the Revolution" lies in a quiet grave  
on the estate in Charlotte county where  
he formerly lived. Over it is a marble  
slab inscribed with one line, "His fame  
his best epitaph."

The estate lies on Staunton river, 88  
miles from the town of Lynchburg, near  
the border line which separates Char-  
lotte and Campbell counties. It derived  
its name of Red Hill from the peculiar  
color of the soil in that vicinity. When  
Patrick Henry bought the place, it com-  
prised about 3,000 acres. The man who  
rich—there was a saying in the neigh-  
borhood that poor land and Henry could  
never be mentioned together—corn  
grows there as high as a man on horse-  
back; there is a general air of smiling  
fields and abundant prosperity. Its sit-  
uation in early times was very remote.  
Neighbors were few, one of the nearest  
being the celebrated John Randolph of  
Roanoke, who lived in his chosen soli-  
tude 15 miles away.

Red Hill is now owned by Henry's  
grandson, William Wirt Henry, a  
clever, cultivated gentleman of the  
"old school." He has in his possession  
some most interesting relics of his cele-  
brated grandfather, including the desk  
he always used, which still contains his  
letters from Lafayette, Washington,  
Madison and other great men of early  
days; the large, round backed chair in  
which Patrick Henry died and a portrait  
of him by the elder Bully, under which  
hangs a yellowed slip of paper, signed  
by Chief Justice John Marshall and  
several others of his friends, testifying  
to the faithfulness of the likeness.—  
Philadelphia Press.

**READING SEALED LETTERS.**  
A German Scientist Shows How This May  
Be Accomplished.  
It is not generally known that sealed  
letters may in many cases be read with-  
out opening the envelopes or doing them  
the least injury. It was discovered by a  
German physiologist by the use of an  
embryoscope, or egg glass, that the  
shells of eggs were of very unequal  
thickness.

It occurred to him to make experi-  
ments in order to ascertain how many  
leaves of ordinary letter or official pa-  
per must be laid above and below a  
written leaf in order to make it illegible  
to a highly sensitive eye in the direct  
sunlight. He found that after he had  
rested his eye in a dark room for 10 or  
15 minutes he could read a piece of writ-  
ing over the mirror of the embryoscope  
that had been covered with eight layers  
of paper.

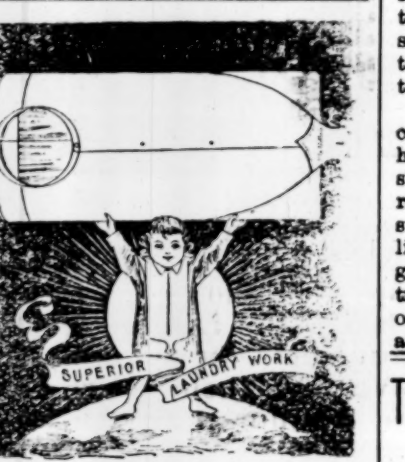

He called in other observers to con-  
firm the results. The letters, however, that  
could thus be deciphered were written  
in dark ink on one side of the paper  
only. If four written sides were folded  
together, and especially if there had  
been crossing, it was hard to make out  
the drift of the writing, and there are  
some kinds of writing which, when  
folded twice or thrice, admit too little  
light for the purpose of decipherment.

In this way possibly many of the per-  
formances of "clairvoyants" may be ex-  
plained. By means of the egg glass it  
is as easy to make out the contents of  
letters or telegrams without the slight-  
est tampering with the envelope  
than it is to detect the movements of  
the embryo in the egg.

Suppose the writer of a billet, the  
contents of which are known only to  
himself, lets it out of his hand and loses  
sight of it for five minutes. It may be  
readily carried either into the direct  
sunlight or into electric or magnesium  
light and be read by the aid of the egg  
glass. The placing of a piece of car-  
tridge paper in the envelope or the col-  
oring of it black is a means of defense  
at hand.

## Soldiers from Santiago.

Eleven wounded soldiers, who were in the attack on San Juan, passed through today on the noon train enroute to their home in the north. The men were wounded in different places, though most of them in the arm. One stout young fellow was shot in the head. The bullet entered near the back of his head and came out back out back of his right ear. The wound was almost healed, though it left two ugly scars.

Some of the men received but slight flesh wounds, but they said the force of the Mauser bullet was such that whenever it hit a man it knocked him down.

These men left Santiago soon after the battle and have been in the hospital at Key West for three weeks. It will be several months yet before some of them will be able to join their regiments again, while others were rendered totally unfit for service.

### For Good Drinking Water.

The Executive Committee of Davidson College has ordered the establishment of a complete system of water works for the college, large enough to furnish an abundant supply of pure water for drinking and sanitary purposes, and for equipping the institution with modern bath-room conveniences. The water will also be furnished to all the college boarding-houses, and the town is taking steps to co-operate with the college and extend the system throughout the corporation for the use of all the citizens.

As it will require eight or ten weeks to bore the necessary artesian wells, reaching from 100 to 150 feet in depth, will be driven immediately, so as to furnish water of tested purity for the term in September.

About one month ago my child which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera, Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. Boggs, Stumptown, Gilmer Co., W. Va. For sale by C. E. Holton.

The deceased was born at her father's home, Oakland, in Sampson county, and was a daughter of that noble patriot, Col. Frank J. Faison, and Susan M., his wife, from whom she inherited those noble traits of character which endeared her to all. Her faults were few and those leaned to virtue's side. The married Mr. Ransom M. Middleton, of Duplin county. They lived on their farm until five years ago, when they moved to Greensboro for the purpose of educating their children.

Five weeks ago she came down to Duplin county to visit relatives and friends and was called home to Heaven. She was a consistent member of the Presbyterian church.

She leaves a devoted husband, five loving children, and a host of relatives and friends to mourn her death. All that skill and kind hands could do was done for her relief and comfort. She will be buried at the Faison cemetery, Elliot, N. C., tomorrow at one o'clock.

"Her toils are o'er, her work is done,  
And she is fully blest.  
She fought the fight, the victory won,  
And entered into rest."
